We have reviewed and understand the contents of the specification and claims as amended in the Reissue Patent Application filed on February 27, 2002, including original claims 1-8 and new claims 9-36.

We believe ourselves to be the original, first, inventors of the subject matter described and claimed in the original Letters Patent No. 6,031,956, entitled HIGH PERFORMANCE SINGLE MODE WAVEGUIDE, issued February 29, 2000, based on U.S. Patent Application Serial No. 09/173,097, filed October 14, 1998, and in the attached specification, for which invention we solicit a reissue patent. As to the claimed subject matter of this application, we do not know and do not believe that this subject matter was ever known or used in the United States prior to our invention or discovery thereof.

We hereby claim priority benefits under Title 35, United States Code, § 119 of any application(s) for patent or inventor's certificate or any PCT international application(s)

designating at least one country other than the United States listed below and have also identified below any application(s) for patent or inventor's certificate or any PCT international application(s) designating at least one country other than the United States of America filed by us on the same subject matter having a filing date before that of the application(s) of which priority is claimed:
